

Company Profile

One accountable partner across the pharmaceutical value chain — connecting manufacturing, product registration, and supply across Türkiye, the GCC, and the wider Eurasia & CIS region.

From molecule to market. Connecting pharma supply across Türkiye & beyond.

WHO WE ARE

A single, accountable pharmaceutical partner

TDM Pharma connects quality manufacturing, regulatory expertise, and reliable supply so our partners can bring medicines to market faster and with confidence. We combine in-house commercial, regulatory, and scientific expertise with an established manufacturing network — giving international partners one accountable point of contact from formulation and production through registration, export, and distribution.

WHAT WE OFFER

Capabilities built for market entry

A complete pathway for partners seeking to introduce and grow pharmaceutical products in their markets — production, registration, supply, and insight under one roof.

01 Contract Manufacturing (CDMO)

Flexible, quality-assured production of finished dosage forms — from technology transfer and scale-up to commercial supply — matched to GMP-aligned facilities across a broad therapeutic range.

02 Registration & Regulatory Affairs

Dossier preparation (CTD/eCTD), product registration, and lifecycle management, with the supporting quality package — GMP certificates, CPP, CoA, specifications, and stability data.

03 Export & Distribution

Established export channels and documentation for reliable cross-border supply, with dedicated international business development and market-access support.

04 API Trade & Market Research

Sourcing of active pharmaceutical ingredients through audited channels, and therapeutic-area, pricing, and market-entry analysis that informs registration and supply priorities.

MANUFACTURING

Manufacturing capabilities

Our manufacturing network produces a wide range of oral and sterile injectable dosage forms — from tablets, capsules and oral liquids to ampoules, vials and prefilled syringes — in accordance with Good Manufacturing Practice principles, with analytical laboratories for quality control, stability testing, and formulation development, and the capacity to scale for both domestic supply and international export.

Quality assurance

End-to-end QA — from raw-material intake to final release — for consistent, reliable product.

Flexible capacity

Scalable production designed for domestic supply and international export volumes.

Modern infrastructure

Continuously upgraded facilities that adapt to evolving regulatory requirements.

WHY TDM PHARMA

Why partners choose us

One accountable partner

A single point of accountability from production through registration and delivery.

Registration-ready

Full CTD/eCTD dossiers and quality documentation to support fast, compliant market entry.

Broad portfolio

217+ products across oral and injectable forms, plus contract manufacturing to specification.

Regional reach

Supply and market-access experience across Türkiye, the GCC, and the Eurasia & CIS region.

PRODUCT PORTFOLIO

A broad, evolving portfolio

More than 217 products across 24 therapeutic areas and multiple dosage forms — oral solids and injectables (ampoules, vials, prefilled syringes) — available for registration, contract manufacturing, and supply. The full portfolio, grouped by therapeutic class, follows; brand names and confirmed pack sizes available on request.
